Lomakatsi and HP - A Model for Tribal-Led Collaborative Stewardship

Kevin Lo

HP corporate Circularity Lead and Sustainability Distinguished Technologist

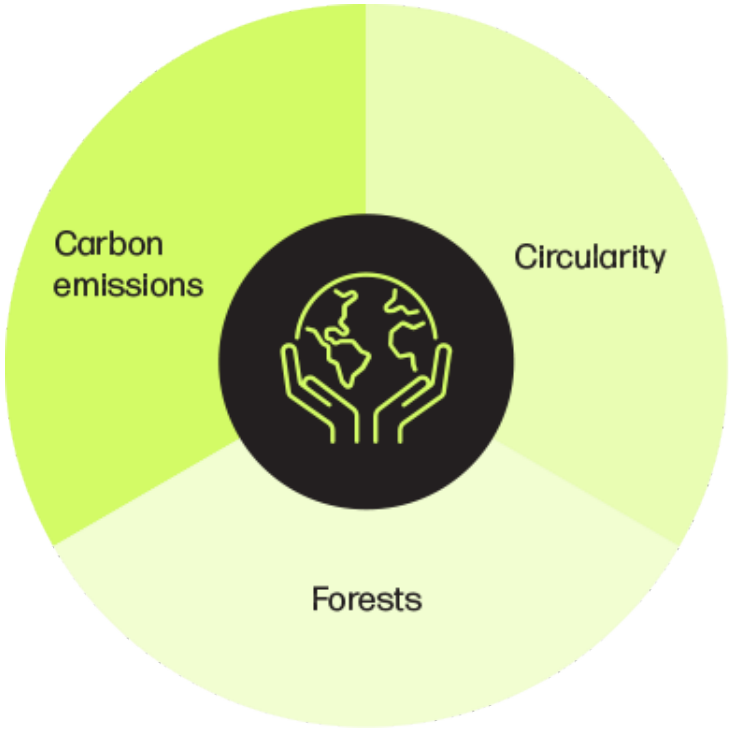
"Companies will be judged by more than the profits they generate. They will be measured by the value they create for society."

- Enrique Lores, HP President, and CEO

We intend to become the world's most sustainable and just technology company.

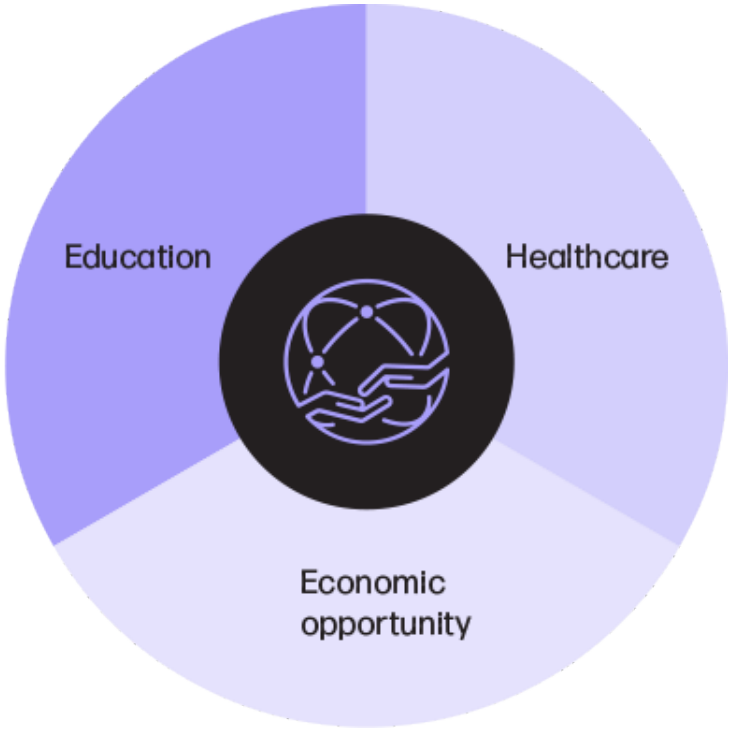
Our Sustainable Impact Strategy

Climate Action



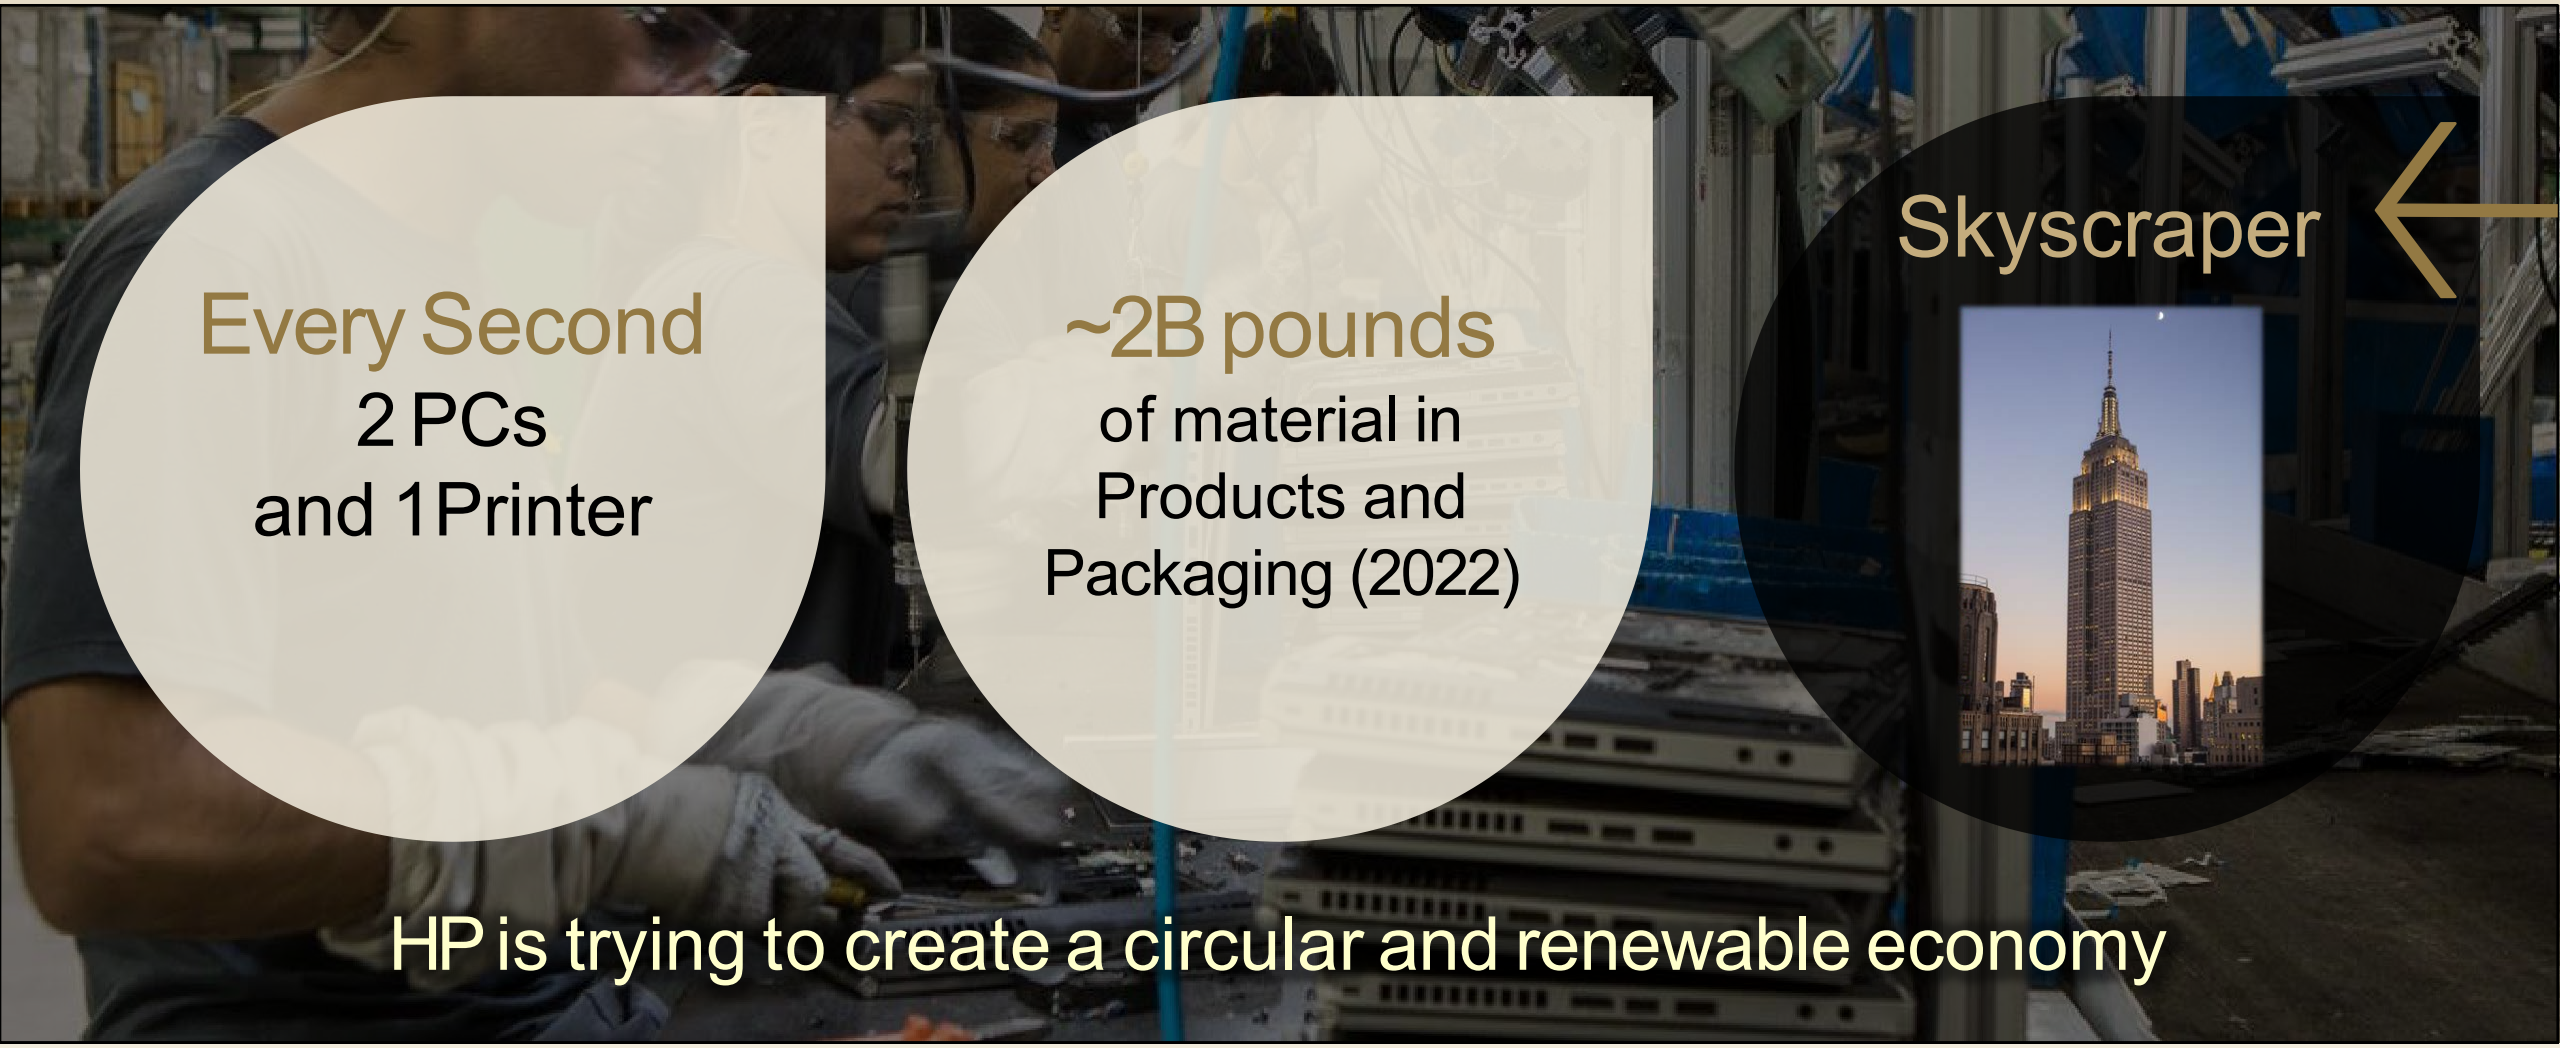
Human Rights

Digital Equity



Impact of HP products

Climate Action | Human Rights | Digital Equity



Every Second
2 PCs
and 1 Printer

~2B pounds
of material in
Products and
Packaging (2022)

HP is trying to create a circular and renewable economy

* As of December 31, 2022.

Impact of printing

Climate Action | Human Rights | Digital Equity

1B+

HP Print Cartridges Recycled through HP Planet Partners *

10T+

pieces of paper used by HP printing customers

Offices in the U.S. consume around 12.1 trillion sheets of paper per year

* As of December 31, 2022.

Increasing focus on Renewables

Molded Fiber Pulp

Since 2020, all HP brand paper and paper-based packaging for home and office printers and supplies, PCs, and displays have been derived from recycled or certified sources.

Future is renewable bioplastics

Forestry: 41% complete, 59% to go

SCIENCE BASED TARGETS

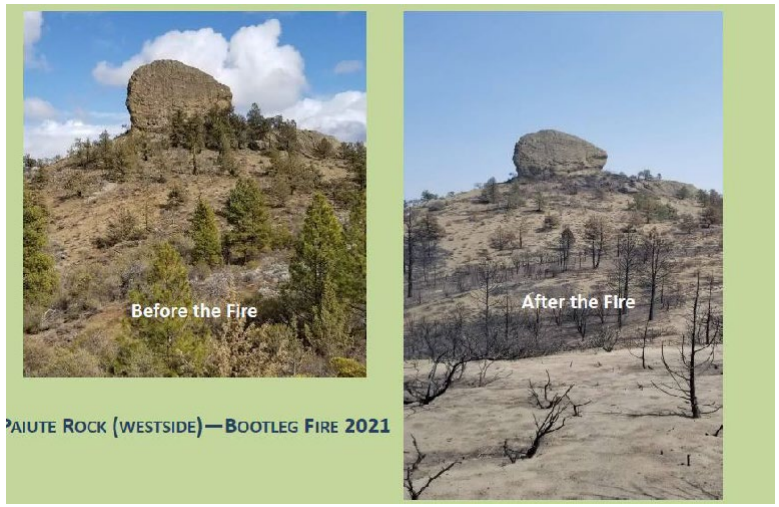
In 2022, we addressed 41% of our total fiber footprint for paper used in our products and print services. Our programs counteracted deforestation for non-HP paper representing 36% of this footprint.

HP's Other Forestry Projects

China: HP and WWF have over 81,000 acres of forest certified by FSC, the gold standard in forest management.

Brazil: With 11 NGOs, around 618 acres of Atlantic Forest, home to endangered species, under restoration to reconnect fragmented patches of forest

Lomakatsi provides HP with Inter-Tribal Partnership



Forest Restoration

- Numu Paiute Rock
- Northern Paiute Gidutikad Band Forest
- Taktokeewa Habitat Restoration

Additionality

Make New Projects Happen

Address Biodiversity

ITEK

Education, Empowerment, Equity and Economic Opportunity

Inter-Tribal Ecological Forestry Development Initiative

Expanding a nationally recognized forest restoration and workforce development model to help build tribal ecological forestry capacity, support ecocultural stewardship, and create fire-adapted communities

LOMAKATSI RESTORATION PROJECT

INTER-TRIBAL ECOSYSTEM RESTORATION PARTNERSHIP

Build a Virtuous Cycle of Positive Reinforcement

Why Corporate Partners?

- Scale of Impact
- International

What things to consider

- Dilution, spread thin…
- Quarterly versus infinity

How we move forward

- Build a community of organizations
- ~500M indigenous people
- With allyship, we can change the world

Thank you!
