

LOMAKATSI RESTORATION PROJECT

Presents A Free Participatory Workshop

A Fish Passage Project Revisited....

When: Saturday, March 13th, 2010 11am-3pm

Where: Colestin Valley

Meet 11am, Ashland Shop-n-Kart

Help Plant Native Trees and Shrubs Along Cottonwood Creek!

Before

After

In 2007, Lomakatsi and US Fish & Wildlife replaced a perched culvert with a bridge. This project, located on the south side of Mt. Ashland, in the mid-Klamath watershed, was designed to improve passage for resident steelhead trout.

Workshop Overview

- Guided tour of upper reaches of Cottonwood Creek
- Riparian planting and revegetation/native tree & shrub identification
- Willow pruning/management around established plantings
- Discussion on maintenance and monitoring of riparian restoration sites

Details:

Meet at the Ashland Shop-n-Kart parking lot at 11am and carpool or ride in Lomakatsi provided transportation. Bring water, lunch, gloves and rain gear.

~Snow on the valley floor cancels event ~
